

Welcome to Class 2's

Summer Assembly

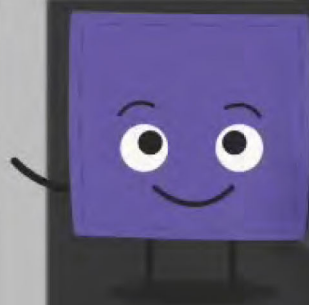

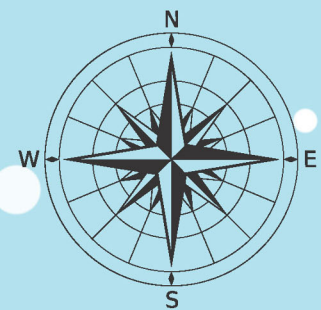

GEOGRAPHY

The background is a repeating pattern of a stylized world map. The map uses a color palette of blue for oceans, green for landmasses, and yellow for specific regions like the Sahara. Various geographical features are illustrated, including snow-capped mountains, palm trees, and bodies of water. Animals are placed across the map to represent different biomes: polar bears and walrus in the Arctic, camels in the desert, kangaroos in Australia, and bears in temperate forests.

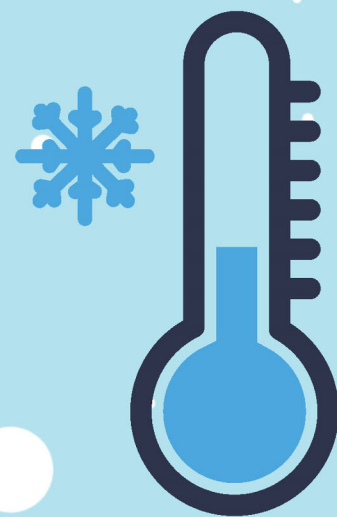

Hopscotch

Antarctica

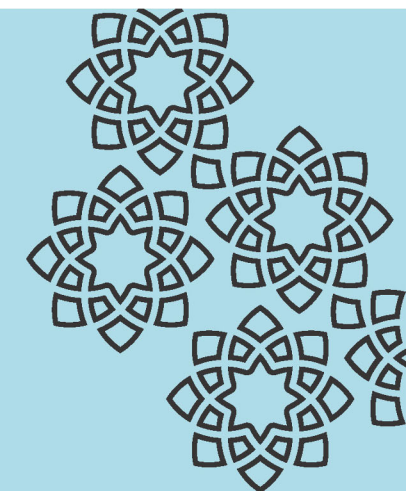

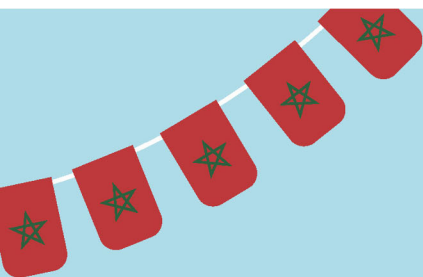

Ernest Shackleton

AFRICA

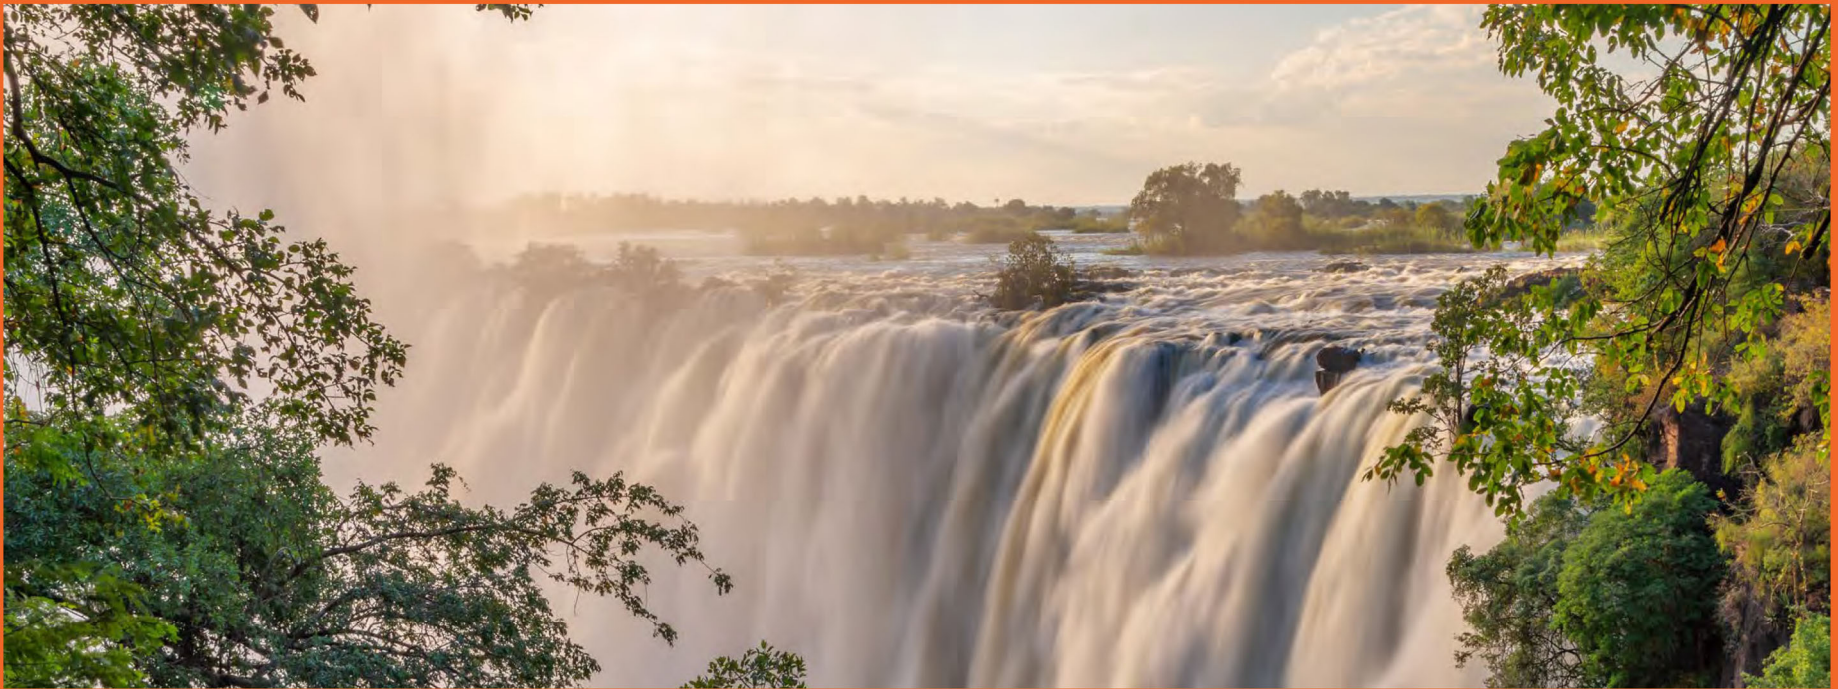

Africa is the most genetically diverse continent on earth, with a greater range of genetic diversity than any other continent.

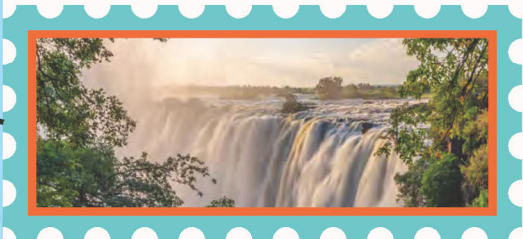

It has a rich history and is home to some of the world's most ancient civilisations, including Egypt, Ethiopia, and Nubia.

Victoria Falls

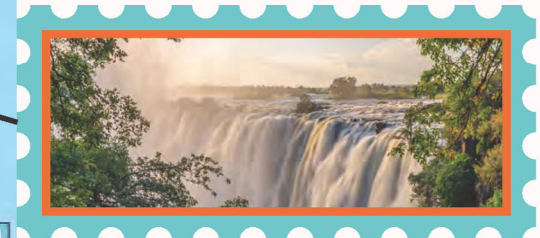

Réunion Island is located approximately 680km east of Madagascar

Mauritius is located approximately 800km east of Madagascar

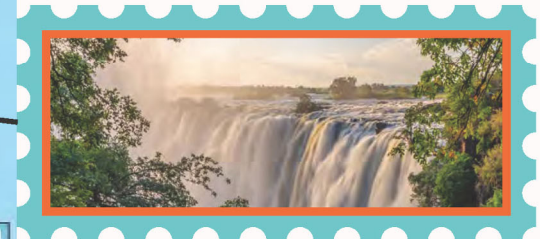

Egypt

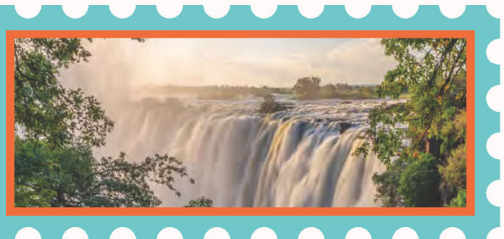

Mount Kilimanjaro

The Maasai Mara National Reserve

Nelson Mandela

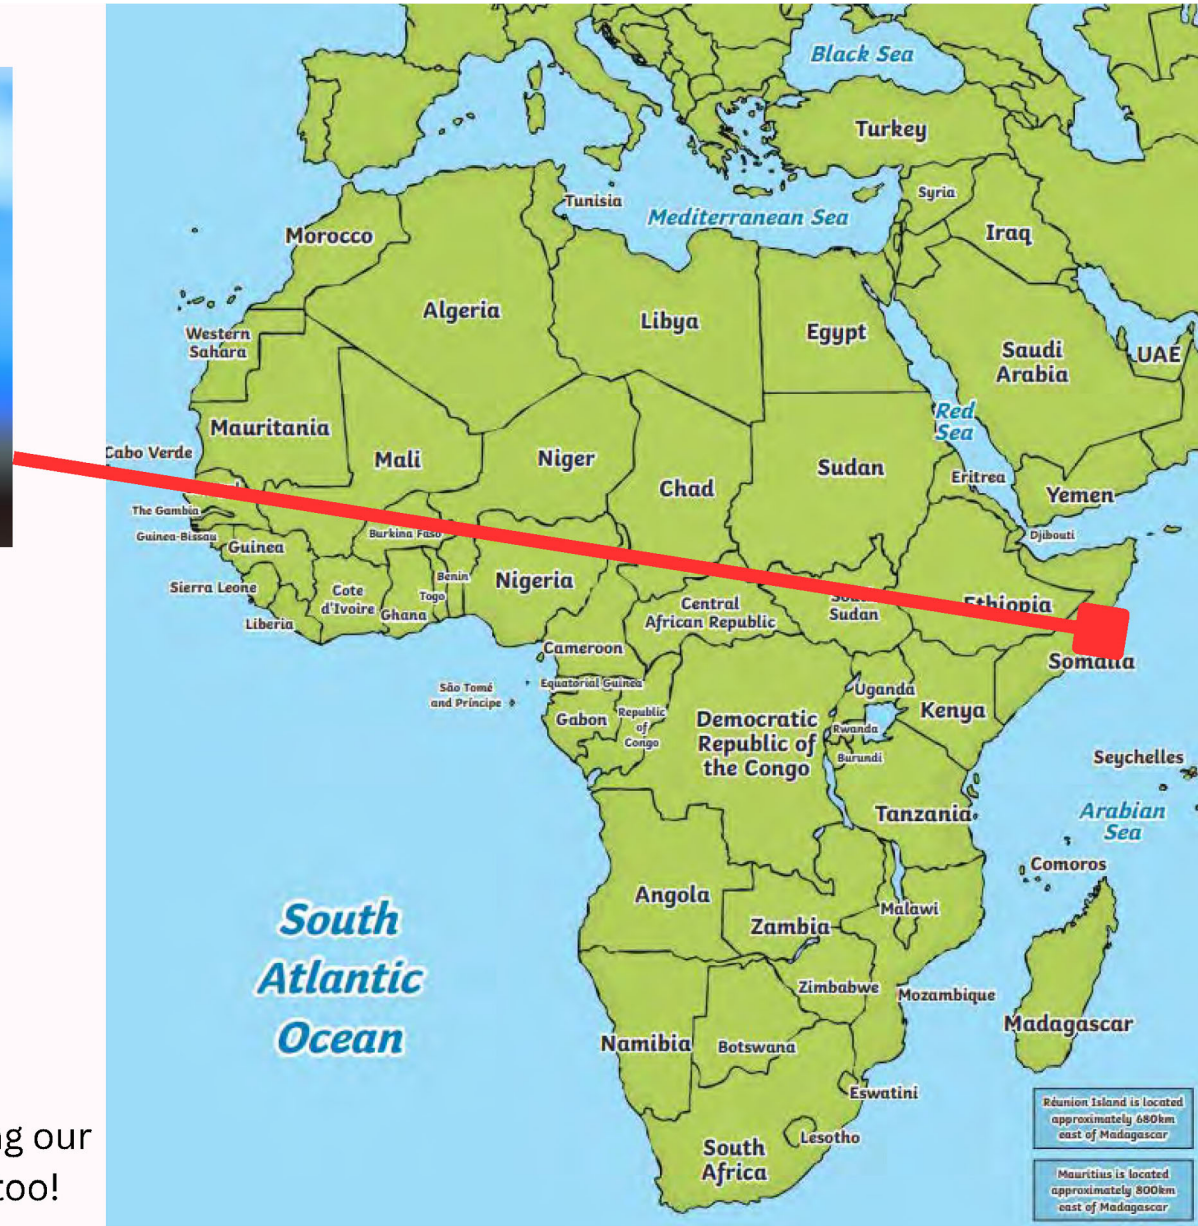

Mo Farrah

We learnt about some of these athletes during our topic on Japan and the Olympics last year too!

Chris Froome

We learnt about some of these athletes during our topic on Japan and the Olympics last year too!
